'Mobile Reinvention' of the Soviet Union

Andrei Bogdanov

+7 095 795 3613

November 2004

Key points

- The CIS with its 135 mln population would be a natural extension of growth for Russian wireless operators
- Going forward, we expect the ‘average’ penetration in CIS countries to reach 54%, growing to the high 70s for the best economies
- Russian mobile operators are better positioned to win the M&A race in CIS countries compared to foreign players
- Some Eastern European and Middle Eastern countries also look promising and may be explored

CIS: The Second Russia?

• Population similar to Russia

- CIS countries have a combined population of 135 mln excluding Russia (143 mln).
- Russian language is widely spoken.

• GDP growth of up to 14%

- There are four countries with a level of GDP per capita 'close' to that of Russia.
- GDP growth varies from 4% to 14% but from a very low base.

CIS mobile market: Waiting for Russians

- Mobile development is at a very early stage**

- Penetration ranges from only 2% up to 16%.
- Mobile penetration exceeds wireline in only two countries (Georgia and Azerbaijan).

- 'Big Three' are present in only four CIS countries**

- We expect further expansion in 2005.

CIS Mobile Market Snapshot

	Mobile Penetration (2Q04) %	# of real players	Estimated ARPU (2003) \$	Estimated ARPU (2004E) \$	Change %	Fx Line Penetration (2003) %

54% average penetration in CIS by 2012E

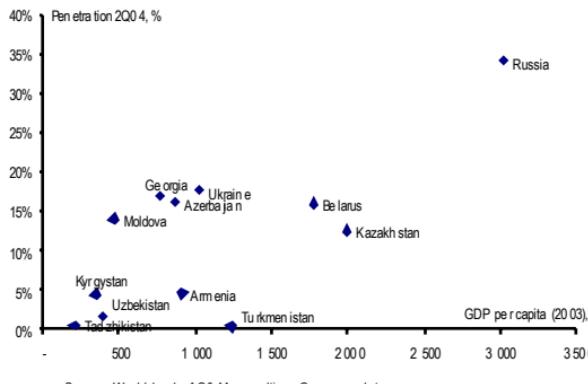

- **High market concentration and lack of competition limit penetration growth**

- This kept ARPU at a rather high level compared with the Russian average of \$15 in 2003
- This is even more impressive when expressed as a percentage of GDP per capita – ranging from 0.9% to 21.8%

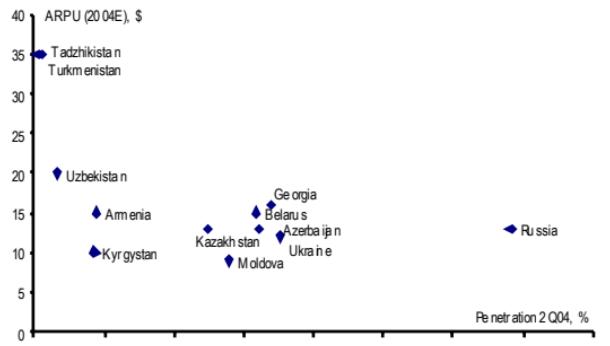

- **Addressable market for mobile services in CIS countries could reach 70%+**

- ... in the cases of Ukraine, Belarus and Kazakhstan, and should reach only 40-50% in other countries

Who is there already?

- MTS has the biggest presence,...**

- ...although Kazakhstan showed that VimpelCom is ready to pay a premium to MTS' offer.

- Presence of foreign investors is limited**

- Scandinavians are the only sizeable investors in CIS markets.
- Only eight of twelve CIS countries have international strategic investor/s in the mobile market.

‘Big Three’ Exposure to CIS					
	Investor	Company Ownership	Subscribers (3Q04) mln subs	Estimated market share %	Penetration (2004E) %
Belarus	MTS MTS-Belarus (unconsolidated)	49%	970	48%	23%

Central and Eastern Europe: Next step after CIS?

- Only 4 CEE markets may be potentially interesting for Russian investors**

- These are Bosnia and Herzegovina (31% penetration), Bulgaria (51%), Macedonia (38%) and Romania (37%).
- These countries have a combined population of 42.2 mln and 41% weighted penetration.

Major Mobile Players in CEE (and selected Middle East) Countries				
	Population mln people	GDP per capita (2003) \$	Mobile penetration (2Q04) %	No of players
Albania	3.2	1 932	36%	2
Bosnia and Herzegovina	4.1	1 682	31%	3
Bulgaria	7.8	2 538	51%	2
Croatia	4.5	6 356	59%	2
Czech Republic	10.2	8 375	98%	3

Up to \$600 mln could be spent in CIS in 2005

- Four markets are interesting in terms of M&A short-term

- Operators in Georgia, Azerbaijan, Kyrgyzstan and Uzbekistan could be the primary acquisition targets.

- Russians are prepared to pay a premium

- Recent deals in Uzbekistan and Kazakhstan show that both MTS and VimpelCom are ready to pay a premium to their own multiples.
